PROFILE

- MSBAIM candidate with quantitative economics training using SQL/Python to solve complex customer, risk, and operational problems, translating large-scale data into actionable insights and strategic business recommendations.
- Technical Skills:** SQL, Python, pandas, NumPy, scikit-learn, DuckDB, Tableau, Power BI, Excel, R, and AWS.

EDUCATION

Purdue University, Daniels School of Business **West Lafayette, IN**
Master of Science in Business Analytics and Information Management **Aug 2027**

- Industry Practicum – Engineered a reproducible Python/SQL pipeline transforming 30,000+ membership records into analysis-ready data for multi-site staffing optimization and retention-risk modeling.

University of California, Riverside **Riverside, CA**
Bachelor of Arts in Quantitative Economics and Econometrics **June 2026**

ACADEMIC PROJECT

Credit Risk & Customer Profitability Analytics **June 2026**
Data Analyst

- Developed an end-to-end credit risk pipeline evaluating 30,000 credit card customers across default risk, expected-loss proxy, approval strategy, portfolio exposure, and risk-adjusted profitability.
- Modeled default risk with 0.779 ROC-AUC, 81.78% accuracy, and 3.15x top-decile lift; designed a Tableau dashboard to communicate portfolio risk and inform credit-policy decisions.

Customer Revenue Recovery & Retention ROI Engine **March 2026**
Data Analyst

- Evaluated 970,960 customers across churn risk, profit-adjusted CLV, revenue leakage, save-worthiness, ROI simulation, and A/B test planning with Python and SQL.
- Prioritized 71,437 economically positive paid-offer candidates representing \$15.83M expected net save-value proxy and 20.00x paid-offer ROI proxy under base planning assumptions.

PROFESSIONAL EXPERIENCE

The Global Career Accelerator **Riverside, CA**
Business Analyst Intern **March 2026 – June 2026**

- Evaluated 50,000 banking customers and 250,000+ transactions; prioritized the top 20% customer relationship-growth segment and modeled targeting strategies projected to lift cross-sell conversion by 8–12%.
- Assessed pricing and margin performance across 100,000+ sales transactions and 750+ products; flagged discounting leakage and recommend actions projected to improve gross margin by 3-5%.

University of California, Riverside **Riverside, CA**
Operations Manager **September 2023 – June 2026**

- Led high-volume recreation operations across 8–12 weekly leagues and open recreation blocks, coordinating 15–20 employees to maintain safety, capacity and service reliability.
- Created Excel and R KPI reports tracking participation, incidents, staffing coverage, late starts, and game completion; recommended format changes that reduced late starts by 20%.

UC Riverside, A. Gary Anderson Graduate School of Management **Riverside, CA**
Business Operations Coordinator **June 2024 – June 2025**

- Built an Excel operations tracker that uncovered 2-3x fee deadline demand spikes, informing targeted staffing reallocations that cut peak wait-times by 25% and transaction corrections by 15%.

LEADERSHIP, AFFILIATIONS & SKILLS

- NCAA Division 1 Track & Field, University of California, Riverside
- Treasurer, Quantitative Economics & Business Club and Mathematics Club
- Certifications: Data Analysis, Data Visualization, AI Professional Skills, and Intercultural Skills
- Languages: Hindi, English, Bengali, Mandarin
